Dear Sir or Madam,

First and foremost, welcome to our Property Portal and thank you for relying on it.

Having your own web page with a search engine and a database structure, apart from being expensive, involves a great deal of time and work to keep it up to date. Our difference with the rest of Property Portals in the market is that Bellevue Costa Blanca has more than 300 International Property Brokers and many of them still collaborate with us. Our work didn't start a short time ago or has just started, as many Property Portals and their position show. Since 1999, we are attending to customers and brokers all over Europe. Most of our investments were made abroad, thus gaining in prestige among professionals.

Bellevue Costa Blanca offers you an easy and economic system that will help you to receive customers from all over Europe.

The system is very simple: we suggest you to use the Bellevue Costa Blanca web page to place the information about your properties.

Thus, you will improve your offers within the international market:

- Individual information report of each property.
- Five languages: Spanish, English, French, German and Chinese.
- Up to six photos for each property.

Direct contact between the Internet user and the property company, since the logo, the telephone number and the e-mail address appear on the information report and you have the possibility of sending a direct e-mail.

- **Only Real Estates agent's are advertised**
- **Clients from all over Europe buy**

Call us today and test our Portal during **one month free.**

Here you have some good advice that will help you to obtain the maximum performance from our Portal:

- Include photos of the properties (maximum six and up to 400 pixels each one in a "jpg" format)
- Include the description of the property, it makes it more interesting and attractive (mainly in English, although it is advisable to have it also in Spanish, French and German if you want to aim this advertising at these markets).
- Make the best use of the number of properties you can publish, thus you will offer a wide and varied property offer. Likewise, if you periodically change the properties appearing on Bellevue Costa Blanca,
- you will have a better chance of contacting and any customer accessing regularly to our Portal will always find new offers and will be encouraged to go on visiting this web regularly.
- Consult periodically statistics, they will give you guidance on the markets you should direct your advertising to (both in the web and in other media).
- Answer the contacts as soon as possible, thus we will get in before other companies and project a completely efficient image concerning a customer's interests.
